On behalf of the Organizing Committee, it is our great pleasure to invite you to the 17th IEEE International Workshop on Information Forensics and Security (WIFS) 2025, which will be held from 1st to 4th December 2025 in Perth, WA, Australia. The IEEE International Workshop on Information Forensics and Security (WIFS) 2025 will be the 17th edition of the major annual event organized by the IEEE Information Forensics and Security Technical Committee (IFS-TC) of the IEEE Signal Processing Society (SPS). The major goal of WIFS is to bring together researchers working in the different areas of information forensics and security to discuss challenges, exchange ideas, and share state-of-the-art results and technical expertise, to build a community capable of providing adequate tools and solutions to face the challenges of tomorrow.

Topics of interest include, but are not limited to, the following areas:

- Anonymization and Data Privacy
- Applied Cryptography
- Biometrics
- Communication and Physical-Layer Security
- Cybersecurity
- Forensic Analysis
- Hardware Security
- Multimedia Content Hash
- Network Security
- Surveillance
- Usability and Human Factors
- Watermarking and Data Hiding
- Adversarial Machine Learning
- Steganography and Covert Communications
- Information Theoretic Security
- Security of Large Networked Systems

- · Blockchain Forensics
- IoT Forensics
- Cloud Forensics
- Cyber-Physical Systems Forensics
- Explainable AI in Security
- LLMS Security and privacy
- Agentic Al and Cybersecurity
- Fairness in Artificial Intelligence
- Robustness and Reliability in Al Systems
- Multi-modal AI Systems Security Challenges
- · Metaverse Forensics
- Forensics for Social Media and Online Platforms
- Quantum Forensics
- Digital Forensics in Space Systems
- Security and Forensics issues 5G/6G Networks
- Security and Forensic Challenges in Autonomous Systems

CALL FOR PAPERS

Prospective authors are invited to submit research papers be up to 6 double-column pages , including references and figures, presenting original works and addressing Information Forensics and Security aspects in a broad sense. The top ranked 5 IEEE WIFS 2025 papers will be recommended to IEEE Open Journal of Signal Processing (OJSP) as an extended version following the requirements of Signal Processing Society (SPS) for the extension of conference papers to journals*. The Open Access Article Processing Charges will be waived for the manuscripts that are accepted for publication.

IMPORTANT DATES	
Paper/Demo Submission Deadline	July 31, 2025
Tutorial Proposal Deadline	July 31, 2025
Tutorial Notification	August 15, 2025
Acceptance Notification	September 15, 2025
Camera-ready Submission	September 30, 2025
Early Registration Close	October 4, 2025
Workshop Dates	December 1 – December 4, 2025

GENERAL CHAIR

Prof. Helge JanickeEdith Cowan University, Australia

PROGRAM CHAIRS

Dr. Shihao Yan Edith Cowan University, Australia

Prof. Mauro Barni University of Siena, Italy

Prof. Jiande Sun

Shandong Normal University, China
